

October 1–5, 2026 Poll of Florida Registered Voters

contact@wavepolling.com

Methodology

This survey of 1,030 Florida registered voters was conducted by Wave Polling and Research. Fieldwork was carried out online October 1–5, 2026 by Verasight. All respondents were matched to the voter file as registered to vote in Florida and confirmed their state of residence in the survey.

Weighting. The data are weighted by Wave Polling and Research using iterative proportional fitting (raking) to registered-voter targets on eight dimensions: age, race/ethnicity, sex, household income, education, and white/non-white race by college or non-college educational attainment, benchmarked to Florida registered voters in the Census Bureau’s November 2024 Current Population Survey (CPS) Voting and Registration Supplement; 2024 presidential vote, benchmarked to Florida’s certified results, with the share of registered voters who did not vote in 2024 held at its CPS value for Florida; and local quintile of Trump vote share, in which each respondent’s zip code is matched to precinct-aggregated presidential results calibrated to certified county, congressional-district, and state totals, and binned by the surrounding area’s Trump share of the two-party vote averaged over 2020 and 2024, with each quintile holding one-fifth of Florida’s two-party vote. Weights were raked from uniform starting values and iteratively trimmed to the range [0.2, 5] with margins re-imposed after each trim.

Margin of error. The margin of sampling error accounts for the survey’s design effect, a measure of the loss of statistical power due to survey design and weighting. The Kish design effect of the weights is 2.08, for an effective sample size of 496 and a margin of sampling error of plus or minus 4.4 percentage points on a 50% proportion. Real-world error includes sources of error beyond sampling error — such as nonresponse bias, coverage error, and measurement error in self-reports — and margins of sampling error understate total survey error.

Fieldwork provider methodology. The following describes Verasight’s sampling and data-quality procedures for this project. The sampling criteria were: adult (age 18+), U.S. resident, and registered voter matched to the voter file, registered to vote in Florida per voter file records, and in-survey confirmation of state; the final sample includes only respondents who passed all data quality assurance checks, outlined below.

Respondents were recruited via email from the Verasight Community, which is composed of individuals recruited via random address-based sampling, random person-to-person text messaging, and dynamic online targeting. Additional recruitment was done over SMS-to-web for hard-to-reach groups. All Verasight community members are verified via multi-step authentication, including providing an SMS response from a mobile phone registered with a major U.S. carrier as well as within-survey technology verifying the absence of non-human responses, such as Google reCAPTCHA v3.

To further ensure data quality, the Verasight data team implements a number of post-data-collection quality assurance procedures, including confirming that all responses correspond with U.S. IP addresses, confirming no duplicate respondents, verifying the absence of non-human responses, and removing any respondents who failed in-survey attention and/or straight-lining checks. Respondents who completed the survey in less than 30% of the median completion time were removed. Unmeasured error in this or any other survey may exist. Verasight is a member of the American Association for Public Opinion Research Transparency Initiative.

About Wave Polling and Research

Wave Polling and Research is a political polling and research firm founded and led by G. Elliott Morris. Wave designs and fields surveys, models public opinion from the national level down to states, congressional districts, and counties, and advises organizations on what to do with what it finds.

Wave has clients in advocacy, labor unions, survey research, and academia. The firm's premise is that honest, constant, public measurement of opinion is part of the infrastructure of self-government. Wave's work includes direct polls of national and state populations, randomized message and framing experiments, and small-area opinion estimation using multilevel regression and post-stratification (MRP), producing modeled estimates for geographies as small as congressional districts and counties. Wave also briefs its clients on how to interpret the data and put it to use.

Wave operates under a dual mission: First, to advance rigorous methodology and transparency in the public polling industry. Second, to use polls to give the people a voice in Washington, D.C. These two goals help safeguard surveys for the future and ensure that what Americans actually think is measured honestly and heard where decisions are made.

Crosstabs: October 1–5, 2026 Poll of Florida Registered Voters

Reading these tables. Percentages are weighted column percentages within each banner category. Cells with fewer than 50 unweighted respondents are suppressed (*). Some banner categories exclude respondents with missing data on the grouping variable, so column totals may be smaller than the overall sample. For the multi-select question, percentages are the share selecting each option and may sum to more than 100%. These tables cover the questions asked of every respondent in the same form; the “amnesty” experiment and the MaxDiff priority exercise are reported in the topline.

- **Party ID** — Dem, Rep, Ind. Independents and others who lean toward a party are grouped with that party.
- **2024 Vote** — Trump, Harris, DNV/Other (did not vote or voted for someone else).
- **Race/Ethnicity** — White, Black, Latino, Other. Hispanic ethnicity supersedes race; Asian respondents are grouped with Other.
- **Age** — 18–29, 30–44, 45–64, 65+. **Gender** — Male, Female.
- **Household Income** — Under \$50,000; \$50,000–\$100,000; \$100,000 or more.
- **Education** — HS or less, Some college (includes associate degrees), College graduate or more.

Trump administration handling: Border security	7
Trump administration handling: The economy	8
Trump administration handling: Tariffs and trade policy	9
Trump administration handling: Cuts to federal spending	10
Trump administration handling: Health care	11
Immigration enforcement	12
Focus of immigration enforcement	13
“Focusing too much on deportations”	14
Mass deportation of immigrant workers	15
Agree or disagree: “Undocumented immigrants who commit a crime should be deported, but hard-working undocumented immigrant workers need a path to legal status.”	16
Agree or disagree: “Illegal immigration has been out of control for too long, and it’s time to deport immigrants who illegally crossed the border regardless of how long they’ve been here or if they have citizen children.”	18
Acceptable or too far: Deporting undocumented immigrants who have committed violent crimes	20
Acceptable or too far: Deporting undocumented immigrants with no criminal record who have lived in the U.S. for many years	21
Acceptable or too far: Detaining U.S. citizens or legal residents during immigration raids	22
Acceptable or too far: Separating parents from their U.S.-born children during deportation	23
Acceptable or too far: Sending military troops into American neighborhoods to carry out immigration raids	24
Acceptable or too far: Ending legal protections for immigrants who were previously authorized to live and work in the U.S.	25
Acceptable or too far: Deporting immigrants to countries they have no connection to	26
Legal status and citizenship	26
Path to citizenship: unauthorized immigrants	27
Path to citizenship: DACA and TPS recipients	28

Path to citizenship: employed, no criminal record, here more than 5 years	29
Requirements for a path to citizenship	30
Jobs, wages, and immigrants	31
Bigger reason wages haven't kept up with the cost of living	32
Agree or disagree: Immigrants take jobs that American workers want	33
Agree or disagree: Immigrants mostly do jobs that American workers don't want	34
Agree or disagree: Employers use immigration status to hold wages down for everyone	35
Agree or disagree: Deporting immigrant workers will raise wages for workers like me	36
Agree or disagree: Deporting immigrant workers will make it harder for businesses in my area to stay open	37
Worry about losing work or wages to immigrant hires	38
Support for immigration policies	38
Support for policy: Deporting every immigrant who is in the country without authorization	39
Support for policy: Deporting immigrants who are here without authorization and have been convicted of a violent crime	40
Support for policy: More funding for border security — including federal agents, technology, and physical barriers	41
Support for policy: Increasing the number of immigrants allowed to come to the U.S. legally each year	42
Support for policy: Building more detention facilities to hold people awaiting deportation	43
Support for policy: A path to citizenship for immigrants who have lived here at least ten years, pay taxes, and pass a background check	44
Support for policy: Creating a new government classification for immigrants who have lived here for years that would permit them to stay, but would prevent them from applying for citizenship in the future	46
Support for policy: Permanent legal protections for immigrants who were brought to the U.S. as children	48
Support for policy: Restoring legal protections for immigrants from countries facing war or natural disaster	49
Support for policy: Requiring a court hearing (due process) before anyone is deported	50
Support for policy: Requiring immigration agents to wear body cameras and visible identification	51
Support for policy: Investigations for ICE agents who have killed immigrants and citizens on the streets and inside of, detention centers where people have died	52
Support for policy: Impeach Stephen Miller	54
Support for policy: Investigate corruption, for example, the U.S. government giving contracts for immigration detention centers to Donald Trump's donors	55
Immigration agents and the use of force	56
Heard about immigration agents shooting and killing people	57
Acceptable or too far: Immigration agents using deadly force against someone who is not armed	58
Acceptable or too far: Immigration agents detaining or arresting U.S. citizens who film or protest an immigration raid	59
Acceptable or too far: Immigration agents carrying out raids without body cameras or visible identification	60
Acceptable or too far: Immigration agents using deadly force during a routine traffic stop	61
Acceptable or too far: Immigration agents not being held accountable for deadly use of force	62
Acceptable or too far: People not receiving adequate medical care and dying in detention centers	63
Who should investigate a killing by an immigration agent	64
Concern that agents could arrest or detain someone you know	65

WAVE

POLLING AND RESEARCH

Path to citizenship: DACA and TPS recipients

Do you support or oppose a plan that would allow immigrants who live in America under certain programs but have no option to apply for citizenship, such as immigrants who came to America as children (DACA) or received temporary protected status because of natural disasters or political conditions in their home countries (TPS), the chance to become U.S. citizens if they meet certain requirements over a period of time?

Requirements for a path to citizenship

If there were a path to citizenship for immigrants who currently have no option of becoming a citizen regardless of how long they have been here, which of these qualifications should be required? Please select all that apply.

Asked of all respondents after the experiment; all three arms are combined. Multi-select; columns may sum to more than 100%. The last two options were exclusive.

Immigration agents and the use of force

Heard about immigration agents shooting and killing people

Before today, had you seen, read, or heard anything about federal immigration agents shooting and killing people during immigration enforcement operations?
